

# Natalie Logan - Biography

West Virginia native Natalie Logan was born to sing and when she does, you feel every emotion she brings to life. Her debut CD, *Broke Down*, features 13 songs ranging from heart-touching ballads, to sultry bluesy numbers, to up-tempo attitude-filled anthems. Natalie Logan *is* modern country music.

Natalie learned to love country music from her mother who often listened to country music on the radio. Lynn Anderson's "Rose Garden" was a favorite for young Natalie who would sing into anything that looked like a microphone. As she grew up, she sang everywhere she could, including church and school choirs. She also soaked up other styles of music like blues and bluegrass.

In Junior High school an unkind word from another student made Natalie withdraw from her pursuit of music. From then on, she only sang around the house. She built a good life for herself and became a registered nurse, married the man of her dreams, and raised two sons.

After establishing her career and raising her children, Natalie rediscovered her love of music. On one fateful night she walked into a smoky bar, sang several songs with the house band, and knew then and there that she wanted more. She was going to pursue her musical dreams and sing!

Natalie started performing in local bars and clubs. She recorded a few songs and set up profile pages on several sites including Digital Rodeo. It was her page on Digital Rodeo that caught Nashville producer Brandon Lynn Shane's eyes and ears. A creative partnership was born!

Brandon helped Natalie choose the songs for her debut CD and pushed her to get the very best performances. The result? *Broke Down*. Natalie's debut CD includes 13 tracks showcasing her strong vocal range. From the crowd favorite "It's a Bar Thing" to bluesy numbers like "Walkin' on the Blue Side" and "Nobody Loves Me Like the Blues" to attitude-infused songs like "A Woman Scorned," Natalie delivers her country sound with style and confidence.

Natalie's music has already been catching the ears of country music lovers with radio airplay in West Virginia, North Carolina, Arizona, Alaska, Hawaii, England, Australia, and New Zealand. She also has received strong responses to her live performances at local fairs and festivals, becoming a local favorite.

Natalie's dreams were put on hold once, but now she is ready to take country music by storm. With the support of her family and her undeniable talent, Natalie Logan is on the road to success and she is here to stay.
